

## Freehand Analysis Drawing: SEATTLE

Thursday July 21 to Sunday July 24, 2011

Seattle Space Needle

Join us in Seattle!! Explore the city's unique historic as well as contemporary architecture and landscapes. This course helps students develop the ability to understand, document, and abstract the physical characteristics of a site as well as their personal impressions of it through travel and sketching. Through this process, students learn to understand the design principles of a site and incorporate them into their own work.

*Travel and lodging not included. Students should arrive in Seattle by 6:30pm on July 20. Instruction begins at 9:00am on July 21.*

### Orientation meeting:

Saturday, June 11th, 10am-12pm  
#413, 1010 Westwood Blvd.

Freeway Park designed by Lawrence Halprin
