The Fire Summit is a forum that brings together leaders, experts and organizations to improve coordination for community and natural resource protection for wildfire and other natural disasters.

Government officials, planners, landscape architects, builders, FireSafe Council members, natural resource managers, firefighting professionals, and other stakeholders are encouraged to attend this information rich event.

Additional details will be available soon. For more information, contact the South Coast Resource Conservation & Development (RC&D) Council at: (951) 682-3956 or SouthCoastRCandD@gmail.com. Also coming soon see <http://firesummit.info>.
